ABSTRACT

This curriculum guide, one of 15 volumes written for field test use with educationally disadvantaged industrial education students needing additional instruction in the basic skill areas, deals with helping students to develop basic reading and writing skills while studying woodworking. Addressed in the individual units of the guide are the following topics: following safety practices when using woodworking machine tools, using hand cutting tools, selecting a project, mastering cabinetmaking vocabulary, understanding wood shop vocabulary, using the library, filling out shop timecards, and completing a job application form. Each unit contains some or all of the following: a discussion of the major concepts of the technique being covered, instructions to the teacher concerning the use of the given technique, suggested related activities, student instructions, a student assignment, supplemental activities, and one or more worksheets. A basic skills checklist and a basic skills verification form are also provided to assist teachers in identifying those students who require additional help with basic skills. (MN)

INTRODUCTION

These instructional techniques were developed for those industrial education students who demonstrate a need for additional instruction in the areas of reading, writing, math, verbal and visual communication. They were written by indust ial education teachers with a particular emphasis upon teaching a basic skill while retaining a major focus on the subject areas of auto, woods, metals, electronics, and drafting.

Each of these instructional techniques were written using the same format and with guidance from an expert in the areas of reading, writing, math, verbal and visual communication.

In order to help you identify those students who require additional help with the basic skills, a simple easy-to-use BASIC SKILLS CHECKLIST is provided with each subject area module. This Basic Skills Checklist will enable you as the Industrial Education Teacher to better identify those students in your classes who require additional help in the basic skills.

Additionally, a BASIC SKILLS VERIFICATION FORM is provided which will enable you to ask your school's reading resource teacher, basic skills teacher, math resource teacher, Hart Bill Conferencing teacher, or grade counselors, to verify your identification and provide you with help in the instruction of the basic skills.

You may wish to use these techniques as instruction for your entire class, or as a take-home, parent-involvement assignment. They may also be used in your school's reading or math lab or in conjunction with your school's basic skills instructional programs.

These instructional techniques are successful because your students are able to relate reading, writing, math, verbal and visual communication to their own industrial education classes. When your students succeed, they feel good about themselves, good about their schools, and good about their future.

Name _____

CONFIDENTIAL Grade _____ Class _____

Date _____

BASIC SKILLS CHECKLIST (WOODWORKING)

The following is a list of the basic skills (reading, writing, math, verbal and visual communication) that the student should demonstrate an ability in for the purpose of employment or advanced training in the woodworking trades.

1.0 Verbal Communication: The student needs additional instruction in verbal communication if any of the items below are checked NO:

1.1 Yes ____ The student understands verbal instructions given by the teacher.

No ____ Example: Does the student use the guards on the circular saw after being instructed to do so by the teacher?

1.2 Yes ____ The student asks questions about verbal instructions or information not understood.

No ____ Example: Does the student ask questions about the operation of a machine when it appears that the verbal instructions were not understood?

1.3 Yes ____ The student is able to relay simple verbal instructions to another student.

No ____ Example: Is the student able to tell another student the proper procedure for setting up a dado head on the circular saw after they have learned how to perform the operation efficiently?

1.4 Yes ____ The student is able to verbally communicate with the teacher and other students.

No ____ Example: When a student wants permission to perform a certain operation on a machine, is the student able to make the teacher understand his/her request?

2.0 Writing: The student needs additional instruction in writing if any of the items below are checked NO:

2.1 Yes ____ The student is able to write basic instructions to self and others.

No ____ Example: If a student needs to remember a sequence of tasks to be performed, can the student write them in order after being told the tasks by the teacher?

2.2 Yes ____ The student is able to write the answers to questions.

No ____ Example: After a student has demonstrated that they can answer questions orally, can they write the answers on paper?

3.0 Reading: The student needs additional instruction in reading if any of the items below are checked NO:

3.1 Yes ____ The student is able to read and understand job related materials.

No ____ Example: Is the student able to read and understand safety rules and warnings (including the shop safety test), job applications, job orders, and operating instructions for machines?

3.2 Yes ____ The student is able to follow step by step procedures listed on instructional/job sheets.

No ____ Example: Is the student able to perform tasks in a sequence after being given a demonstration and procedure sheet to follow?

4.0 Math: The student needs additional instruction in math if any of the items below are checked NO:

4.1 Yes ____ The student is able to read a rule to increments of 1/16th in.

No ____ Example: Is the student able to pass a test which involves reading a rule; or is the student, as observed by the teacher, able to make accurate measurements during layout work?

4.2 Yes ____ The student is able to calculate the amount of material needed to manufacture an item.

No ____ Example: Is the student able to calculate the amount of wood needed for the front, back, and two sides of a drawer to be constructed?

4.3 Yes ____ The student is able to calculate board feet.

No ____ Example: Given the dimensions of a piece of lumber, is the student able to apply the board feet formula to obtain a solution?

4.4 Yes ____ The student can add and subtract fractions.

No ____ Example: Given the sizes of blades and chippers on a dado set, is the student able to add or subtract the number of chippers needed for a specific width of cut?

5.0 Visual Communication: The student needs additional instruction in visual communication if any of the items below are checked NO:

5.1 Yes ____ The student can understand working drawings and sketches.

No ____ Example: Can a student with the necessary woodworking skills construct a simple project from a sketch or drawing provided by the teacher?

5.2 Yes ____ The student can communicate to self and others with simple sketches or drawings.

No ____ Example: Is the student able to draw or sketch an item they wish to construct?

Identification made by: _____ Date _____.

BASIC SKILLS VERIFICATION FORM

Student _____ Male____ Female____ Grade Level____

Teacher _____ Class_____ Date_____

The Basic Skills Check List (attached) for the above student indicates a need for instructional assistance in the basic skills (reading, writing, math, verbal or visual communication). The following verification and recommendations are made:

____Lacks Reading Skills

____Lacks Writing Skills

____Lacks Mathematical Skills

____Lacks Verbal Communication Skills

____Lacks Visual Communication Skills

WOODWORKING MACHINE SAFETY

(Reading)

Woods Read/Write 1

WOODWORKING MACHINE SAFETY

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

Comprehension of machine safety rules

b. What student learning problem(s) prompted the development of this technique?

Absentee students or students after the second week of school miss general and specific woodworking machine safety rules. To insure that all students see the demonstrations, have them view a video tape presentation on machines demonstrated in class.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Work with the school's media specialist in planning a script and taping the presentation.

b. Have the students visit the media center to view the video tape.

c. Have the students take a written safety test following the tape.

d. The tape can be edited each year for necessary improvements and for additional coverage.

3. SUGGESTED RELATED ACTIVITIES:

You may wish to tape other demonstrations, i.e. mounting and cutting with a dado head, and have students complete a worksheet immediately following the viewing.

WOODWORKING MACHINE SAFETY

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. Read the safety rules for your shop before going to the media center.

b. Report to the media specialist in the library to see the video tape "Wood Machine Safety".

c. Complete the safety test for your shop and return to class.

2. STUDENT ASSIGNMENT:

Your assignment is to view the video tape "Wood Machine Safety" and complete the Woodshop safety test.

3. EXTRA THINGS THAT YOU CAN DO:

You may want to act as demonstrators for taping future lessons.

HAND CUTTING TOOLS

(Vocabulary)

Woods Read/Write 2

HAND CUTTING TOOLS

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

1. Spelling
2. Vocabulary
3. Listening
4. Note taking

b. What student learning problem(s) prompted the development of this technique?

Students need to know the names of hand tools and be able to explain their use.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Use this technique for introducing and/or reviewing hand cutting tools.

b. Demonstrate and/or explain the use of each hand tool.

c. List hand tools on the board.

	TOOL NAME	TOOL USE
1. CROSSCUT SAW	1.	1.
2. RIP SAW	2.	2.
3. COPING SAW	3.	3.
4. BACK SAW	4.	4.
5. JACK PLANE	5.	5.
6. SMOOTH PLANE	6.	6.
7. BLOCK PLANE	7.	7.
8. RASP	8.	8.
9. CHISEL	9.	9.
10. GOUGE	10.	10.

d. Have your students list the hand tools and briefly state the function or use of each tool on the worksheet.

e. Have your students keep the worksheet as a study aid.

3. SUGGESTED RELATED ACTIVITIES:

Have a follow-up quiz on these hand tools and their uses. The same form can be used: hold up a tool and have the students write the name and its use.

HAND CUTTING TOOLS

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. Spell correctly the name of each cutting tool in the first column.

b. Write the woodworking use of the tool in the second column.

c. Keep this worksheet and use it as a study aid.

2. STUDENT ASSIGNMENT:

Your assignment is found on STUDENT PAGE 2.

3. EXTRA THINGS THAT YOU CAN DO:

Use this method for taking notes in other classes.

STUDENT INSTRUCTIONS:

A. SPELL CORRECTLY THE NAME OF EACH CUTTING TOOL IN THE FIRST COLUMN.
B. WRITE THE WOODWORKING USE OF THE TOOL IN THE SECOND COLUMN.
C. KEEP THIS WORKSHEET AND USE IT AS A STUDY AID.

TOOL NAME	TOOL USE
1.	1.
2.	2.
3.	3.
4.	4.
5.	5.
6.	6.
7.	7.
8.	8.
9.	9.
10.	10.

STUDENT PAGE 2

2.3

SELECTING A PROJECT

(Writing)

Woods Read/Write 3

SELECTING A PROJECT

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

Writing a paragraph.

b. What student learning problem(s) prompted the development of this technique?

Many students have difficulty explaining an idea in written form.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Before a student begins an elective project, require him/her to write a short paragraph explaining why he/she wants to build this project.

b. Provide a sample paragraph answering these questions: Who is the project for? What purpose will it serve? How long will it take you to complete the project? What is the estimated cost?

c. Correct the paper and return it to the student.

3. SUGGESTED RELATED ACTIVITIES:

Try to provide special help for those students who need help with writing.

SELECTING A PROJECT

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. This short assignment will give you practice in expressing an idea in writing.

b. Write one or two paragraphs answering the following questions: Why do you want to build this project? Who is the project for? What purpose will the project serve? How long do you plan on working on it? How much will it cost?

c. Write as clearly as you can. Use the shop dictionary if you need to.

2. STUDENT ASSIGNMENT:

Choose a project and write a paragraph explaining it. Here is an example to help you:

Example: NIGHT STAND
(project)

The project I have chosen to make this semester is a Night Stand. My younger brother needs a night stand in his bedroom. He needs more storage for his baseball gloves, books, wallet and other things that often get mixed up with my things. I expect to work on this assignment for six weeks and the cost of the project including hardware will be around thirty dollars.

3. EXTRA THINGS THAT YOU CAN DO:

You might need to write a short statement for another class assignment or for a job interview.

CABINETMAKER'S CROSSWORD PUZZLE

(Vocabulary)

Woods Read/Write 4

CABINETMAKER'S CROSSWORD PUZZLE

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

Vocabulary and spelling

b. What student learning problem(s) prompted the development of this technique?

Advanced students misspell and misname cabinet parts.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Following a lesson on cabinetmaking, explain the importance of being able to communicate properly to other cabinetmakers.

b. Introduce and explain how a crossword puzzle works.

c. Assign the puzzle worksheet to be completed in class.

d. Quickly check to make sure that all students have completed the puzzle.

e. After 10 minutes (or less), have your students trade papers and correct them as a class.

f. Return the puzzle worksheet to your students for use as a study guide.

3. SUGGESTED RELATED ACTIVITIES:

Have a fill-in type spelling and identification quiz using the same terms the following week.

CABINETMAKER'S CROSSWORD PUZZLE

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. This is a crossword puzzle similar to crossword puzzles you may have worked in the newspaper.

b. Match a word to the description given in each statement.

c. Use only the cabinetmaking words listed on STUDENT PAGE 2.

2. STUDENT ASSIGNMENT:

Your assignment is found on STUDENT PAGE 2.

3. EXTRA THINGS THAT YOU CAN DO:

The next time you see a crossword puzzle in the newspaper you may want to try it. It will be a challenge and you'll learn some new words.

CABINETMAKER'S CROSSWORD PUZZLE

CABINETMAKING WORDS

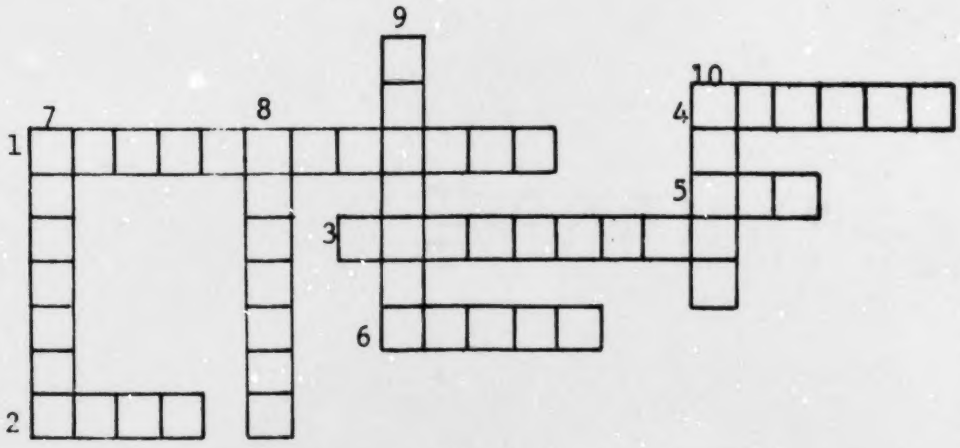
faceframe	drawer
carcass	web
rail	contemporary
dowel	counter
stile	molding

ACROSS

1. A style of cabinetry
2. A horizontal part
3. The front parts around doors and drawers
4. A specialized box
5. An inside frame
6. A vertical part

DOWN

7. The top of a cabinet
8. The trim around top and base of cabinet
9. The shell of a cabinet
10. Used in gluing frames



Wood Shop Words

(Vocabulary And Reading)

Woods Read/Write 5

WOOD SHOP WORDS

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

Technical vocabulary and reading skills.

b. What student learning problem(s) prompted the development of this technique?

Many students have problems reading textbooks and understanding technical subject area words.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Give your students the attached lesson on wood shop words.

b. Briefly explain to your students how to:

1. Alphabetize
2. Complete fill-in questions
3. Define multiple meaning words

3. EXTRA THINGS THAT YOU CAN DO:

Give your students more wood shop words and have them write sentences using these words.

WOOD SHOP WORDS

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

Complete the lesson on STUDENT PAGE 2.

2. STUDENT ASSIGNMENT:

Your assignment is found on STUDENT PAGE 2.

3. EXTRA THINGS THAT YOU CAN DO:

Try to think of more words that are used both in wood shop and outside of the shop but have different meanings, i.e., drill, guard, etc.

STUDENT PAGE 1

WOOD SHOP WORDS

1. Put these words in alphabetical order:

Dimensioning	1.	Cabinetmaker
Coping Saw	2.	_____
Dado Head	3.	_____
Cabinetmaker	4.	_____
Dowels	5.	_____
Drawings	6.	_____
Corner Blocks	7.	_____

2. Select the correct word or words to complete these sentences:

molding cross cut drill press grain lathe

1. You can _____ using a circular saw or band saw.
2. When sanding you usually sand with the _____.
3. If you want to make a wooden bowl or candlestick holder you would use a _____.
4. Before using a jig saw you may need to use a _____ to bore a hole in the wood.
5. A common way to attach _____ to a case piece is to glue, nail or staple.

3. Use these words in sentences that are not related to wood shop. If you wish you may use a dictionary.

Clearance	1.	_____
Guide	2.	_____
Brace	3.	_____
Fence	4.	_____

LIBRARY

(Reading)

Woods Read/Write 6

"LIBRARY"

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

1. Reading
2. Research
3. Browsing written material

b. What student learning problem (s) prompted the development of this technique?

Students usually read only what is assigned. With the "Library" readily accessible they are more apt to pick up something based on interest.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Establish a specific place in the shop lab for display of magazines, pamphlets, etc.

b. Place a student in charge to keep track of things and to place magazines into an attractive display.

c. The display may include periodicals, catalogues, career pamphlets, reference books, dictionary, and "How to..." folders.

d. Encourage students to read selections from this "Library" during times when they have completed other assignments or projects.

3. SUGGESTED RELATED ACTIVITIES:

Offer incentives for students to bring appropriate and relevant materials to add to the "Library". 6.1

Request an annotated bibliography.

SHOP TIMECARDS

(Writing)

Woods Read/Write 7

SHOP TIMECARDS

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

Verbal or written communication can be taught using this technique.

b. What student learning problem(s) prompted the development of this technique?

Students need to be able to write short accurate descriptions of what they do each day. In industry, all workers must learn to keep some kind of records. Shop timecards help teach day by day record keeping.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Have timecards printed to provide a space for each day of the grading period. Three weeks are placed on the side of the card. A column should be for each date, description of work done, or operation performed, date started and date finished.

b. Collect cards after three weeks for grading.

c. Timecards are graded for completeness, description of work done, neatness and anything else the teacher desires. Grading should become more demanding as the year progresses.

d. Return cards for next three weeks.

e. Timecard grades are averaged in with other grades in each grading period.

3. SUGGESTED RELATED ACTIVITIES:

Have your students keep a record of all materials they use during a six week period.

SHOP TIMECARDS

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. Fill in your name and period at the top of the timecard. Place each days date in the date column. There is room for three weeks on each side of card.

b. Each day briefly explain the work you did or the operations that you performed in the description column.

c. Turn in for grading each three weeks.

d. If you lose your timecard, make your own on a piece of paper. You will not receive full credit but you will get a grade.

2. STUDENT ASSIGNMENT:

A sample timecard is found on STUDENT PAGE 2.

3. EXTRA THINGS THAT YOU CAN DO:

Keep a record of all the materials you use in a six week period.

SAMPLE

TIMECARD

Last Name_____ First Name_____ Per. ___

METAL SHOP TIME CARD

STUDENT PAGE 2

JOB APPLICATION

(Reading/Writing)

Woods Read/Write 8

JOB APPLICATION

TEACHER MATERIALS:

1. CONCEPTS OF TECHNIQUE:

a. What SKILL will this technique teach?

1. Completing a job application form
2. Spelling
3. Reading for details

b. What student learning problem(s) prompted the development of this technique?

Students often apply for part-time jobs while attending school and are asked to fill out a job application. Students need practice answering questions that relate to their industrial shop experiences.

2. TEACHER INSTRUCTIONS FOR THE USE OF THIS TECHNIQUE:

a. Use this technique as you organize your shops' clean-up system.

b. Tell students that they will apply for clean-up jobs by completing a job application form.

c. Pass out forms and explain the importance of writing clearly and following directions exactly as they are stated.

d. List job positions on the board such as: foreman, floor sweeper, tool room person, etc.

e. Explain the importance of spelling all words correctly.

3. SUGGESTED RELATED ACTIVITIES:

a. Obtain forms from large companies and/or from small shops for students to see.

b. Students can ask their parents to bring home job application samples from where they work.

c. Have students complete a longer application form for a later assignment.

JOB APPLICATION

STUDENT MATERIALS:

1. STUDENT INSTRUCTIONS:

a. Complete all questions and statements as carefully as you can.

b. Be sure to write neatly, spell correctly, and be as complete as possible.

c. Select from the board the job position you are applying for.

2. STUDENT ASSIGNMENT:

Your assignment is found on STUDENT PAGE 2.

3. EXTRA THINGS THAT YOU CAN DO:

Visit a career center and pick up a handout which explains how to get a job.

JOB APPLICATION

Name: _____ Age: _____

Address: _____ Phone: _____

What job position are you applying for? _____

What wood machines have you used? _____

_____

What was the last school year you completed? _____

Who is your present employer? _____

What is your job title? _____

Who was your last employer? _____

What was your job title? _____

List other job experiences: _____

_____

List references (other than family): _____

_____
